

## DIPPING SHEEP AT STOCKYARDS

Union Yards Instal Vat;  
Movement to the North  
Ranges and Market On.

The movement of cattle wintered on the southwestern ranges to northern ranges and markets continues briskly, according to the reports of the stock yards in El Paso for the past several days.

All the sheep passing out of Texas through El Paso are being unloaded at the Union stock yards to be dipped to prevent sheep diseases, in conformity with the regulations of other states which will not admit sheep from Texas which have not been previously treated.

The Union stock yards has just completed a new cement dipping vat for sheep.

**Receipts at Union Yards.**  
The receipts for the Union stock yards, as reported by P. S. C. Davis, for two weeks are:

## DENVER VOTES UPON 52 MEN

Single Tax System Is Also  
Up for Approval in the  
City Election.

Denver, Colo., May 15.—Citizens of Denver voted today on 52 candidates for two major and nine minor city offices and on six amendments to the city charter, while those who are taxpayers cast an additional ballot on a proposed bond issue.

The officers to be filled are city auditor, for which there are seven candidates; election commissioner, for which there are three, and nine places in the city council, for which there are 42 candidates distributed over the city's nine wards. The bond issue is for the purpose of building a criminal courts wing on the Denver county jail and its proposed amount is \$150,000.

Of the amendments one is to install the "single tax" system in the city's financing. One would give firemen and policemen a flat increase of pay of \$15 a month in all cases where they are now receiving less than \$1800 a year. Another would increase the pay of common laborers in the city's employ from \$2.50 to \$3 a day and of teamsters from \$5 to \$6 a day. Still another would empower the city to declare a state of emergency, to increase the pay of all city employees in amounts not exceeding 20 percent of their regular pay, such increases to terminate with the emergency which caused it to be granted.

And six cars cows and calves, 261 head, to El Paso.

J. D. Duncan, of Phoenix, shipped 23 cars cattle.

**Valley Shipments Shipped.**  
Movements originating in the El Paso valley were:

Charles DeGroot sold seven hogs to J. C. Peyton for slaughter.

Dr. S. T. Turner sold 26 hogs to J. H. Nations.

R. Johnson sold eight goats to J. H. Nations.

"Sam McVeer sold 12 hogs and two calves to C. W. Regan for slaughter."

Dairy Farm company sold 10 hogs to J. C. Peyton.

Dr. J. C. Peyton sold 26 hogs to S. S. Carpenter for slaughter.

J. C. Peyton bought two cars, 74 cattle, from Calverton, Calif., and shipped them to El Paso for slaughter.

**McDONALD SHIPS CATTLE.**  
Roswell, N. M., May 15.—Former governor William C. McDonald, of Carrizozo, who spent a day here, is shipping several trainloads of cattle from Riverside, N. M., to Kansas City.

**NEGRO ED JONES BADLY  
HURT IN FALL FROM TRAIN**

A negro giving the name of Ed Jones was thrown from a Southwestern freight train at Grand avenue, Saturday evening about 7 o'clock and woman living near the tracks, who telephoned the police station. He was taken to the emergency hospital for treatment. His body was torn and bruised, and a rib broken. He was later taken to the county hospital.

## PEYTON PLANT A MODERN ONE

New Slaughter and Packing  
House, Ready July 1,  
Well Equipped.

The machinery and modern appliances which are being installed in the new building of the Peyton Packing company in the Cotton addition near the El Paso Union stockyards will provide a thoroughly up-to-date plant second to none in the southwest and in equipment equal to any in the United States. According to J. C. Peyton the plant will be entirely completed and ready for service July 1.

The architectural engineering firm of David L. Davies and company, of Chicago, represented by C. E. O'Brien, has charge of the construction which was started about the first of the year.

**Line Full Sausage Equipment.**  
The plant will be equipped with three elevators to facilitate the handling of meat from one floor to another. A full complement of machinery for making sausage is to be installed and fertilizer will be made.

Special boiling vats and refrigerators, so as to utilize every portion of the animals slaughtered. It is estimated that the plant will be able to handle 15 cattle and 10 hogs per day.

**Buildings Well Constructed.**  
The buildings are of red brick with steel reinforced construction excepting the basement and their walls, which are of concrete. The building will be of two and three stories and 114 by 157 feet, with two projecting wings on the north side for offices and inspection rooms. The basement of the main building is equipped with skimming pits for collecting the refuse and offal of which soap is made, in addition to large presses, stores for smoking meat, and a storage and cleaning room for the heads of animals. The first floor has a large killing department for hogs and cattle, four rendering tanks for lard, cooling rooms and smoking compartments for beef and pork. The second floor has another killing floor for hogs and cooling and storage air chambers for the meat.

On the south side of the main building and across the railroad tracks a 50 by 80 foot engine and power house has been built in which is being installed boilers and other apparatus. A 35 by 39 foot house is under construction, but it will not be completed until fall, it was reported.

**H. W. PONTIUS BUYS FIELDS'S  
VALLEY HOME FOR \$30,000**

W. L. Fields has sold his beautiful home on the county road one mile east of the five mile bridge, to H. W. Pontius. The consideration was \$30,000. Mr. Fields bought the place from H. L. Dorland about a year ago paying \$12,000 cash for it.

The home embraces 29 acres of land all in a high state of cultivation. There is a handsome residence, a bath, two stables, chicken houses, a pumping plant and about four acres in fruit, peaches, pears, apples, plums and pomegranates. The sale to Mr. Pontius was negotiated by the White-Paden company.

Mr. Fields, who owns four acres adjoining the Lander home on the county road, says he may build another home on it.

## Beauty Chats - By Edna Kent Forbes

Is Your Hat Becoming?

KNOWING how to dress oneself becomingly is as much a gift as the ability to compose music or to paint a wonderful picture. It requires a sense of harmony, so the colors of one's costume may agree, and yet set off each other, and it requires an artistic sense. So the lines of the gown or suit may be in accord and suited to the figure. And of every article of clothing, the most important one, and yet the one a woman usually spends least thought upon—is the hat.

Is your hat becoming? Do you know what sort of hats become you? Do you know that a thin face cannot stand a hat that flares suddenly off the face, and that roundness of face are most becoming to faces past their first freshness, since they throw a friendly shadow over the lines? Do you know that small, tight-fitting hats with turned down brims should only be worn by very young girls, and that light fitting toques should never be bought by a woman with a large nose? Straight brim hats are very hard to wear, and have that cut a straight line across the top of the face, are never as pretty as hats tilted just the least bit. Hats that turn up one side are mature and should be worn by mature women, hats with quantities of trimming are never becoming. For after all the hat is one of the most artificial things about our civilization, and the more ornate the hats are the more artificial they look, and the less becoming they must be. A hat should have good lines, conforming to what is being worn at the moment by other well dressed women—being such an artificial accessory—in style seems out of date long before other garments do so.

Black hats are almost always the prettiest, the color can be put into the dress, the black of the hat serves to tie up and bring into harmony all the other colors of the costume.

An amazingly small number of women can pick out becoming hats.

and use this on your face, and the skin will not break out. Or rub it with a bran bag or an oatmeal bag—either of these grains put into a muslin bag and used like soap. Use hot water. This will cure the blackheads. Try the agar-agar treatment too. You can clean a white face far best by washing it in quantities of gasoline, rinsing in gasoline as well.

## New "Wirthmor" Waists EXCLUSIVE STYLES—UNUSUAL VALUES

**MODEL E-5**—A modest, pretty, conservative style that most anyone could wear becomingly. The front is pleasingly trimmed with embroidery of a very dainty design, with two rows of real hemstitching and four wide tucks. The large collar is defined with a single row of hemstitching, and hemstitching is also used to trim the pretty turn-back cuffs. Fastens visibly with small ocean pearl buttons and made of a fine, sheer voile.

Price ..... **\$1.00**

**MODEL E-6**—In its very simplicity lies the charm of this very desirable model. The entire front is tucked with countless finely-stitched tucks, interspersed with tucks of greater width. Groups of tiny tucks also trim back, while three very large ocean pearl buttons are used for fastening. The collar ordinarily worn low, is so cut that it can with equal effect be worn upstanding. Turn-back cuffs. Made of voile.

Price ..... **\$1.00**

**MODEL E-7**—The wide daintily embroidered revers, joined to collar that is similarly trimmed is the distinguishing feature of this very likeable Wirthmor. Pretty pico lace edging further trims revers and collar. Real hemstitching is used to join collar and revers, to inset sleeves and to trim cuffs, and added attractiveness is gained through the use of groups of fine tucks on front. The material used is a soft durable voile.

Price ..... **\$1.00**

**MODEL E-8**—A most charming and appealing modified sports Blouse. Made of a really handsome material, a sheer, filmy, seed striped Voile. The vest outlined with cording and the turn-back cuffs are of plain white voile, forming an effective contrast. The large collar is of self material and trimmed with small ocean pearl buttons. The tie is of plain white voile. Has the appearance of a far more costly
